Herbs for the Elderly

Many people assume that growing older means developing various chronic health problems like arthritis, heart disease and memory loss. They assume that these are the inevitable problems associated with aging. They also assume that growing older means needing more and more prescription drugs to resolve these various health problems. But this isn't really true. Most of these problems aren't caused by age; they are caused by modern diets and lifestyles. Furthermore, prescription drugs aren't going to correct these nutritional and lifestyle issues.

By adopting better health habits it's possible to improve one's health even in one's senior years. As many people have already discovered, it's never too late to discover healthier ways of living and derive benefit from them.

Please join us for this month's Healthy Habits class on **Saturday, October 11th at 9:00 a.m.** Cost: \$15/person (includes one-hour class with handouts). Register early as space is limited, email enchantedherbpantry@yahoo.com or call (575) 745-1673. **If there is enough interest**, following class we will have a FREE bonus class on Silver Shield from Dr. Gordon Pedersen.
