Are You In Pain? Suffer No More!

It's Time to Learn the Simple Secrets to Pain Relief Without Medication. Nobody enjoys pain. Pain is why we seek help when we are sick. If illness didn't cause "disease" (literally a "lack of ease") we would not be motivated to cure it. Pain, be it mild or severe, is the nearly universal symptom in all human affliction and our universal desire is to find relief from that suffering.

Pain is a signal that something is wrong. It is the body's 911 system, alerting us to the need to change what we are doing because our diet and lifestyle is causing damage to the body. Modern medicine has given us lots of pain relieving drugs and millions of Americans take these medications every day. The problem is that these remedies aren't fixing anything. They are simply numbing the nerves or masking the sensation of pain, while the problems that are causing the pain to go unresolved. Has anyone actually permanently "cured" themselves of getting headaches by taking a pain killer? It's pretty doubtful.

Learn how to relieve pain and promote real healing, the natural way, at this month's Healthy Habits class on **Saturday, April 11th at 9:00 a.m.** Cost: \$15/person. Bring a friend and save \$10 (\$10/ea). Class includes: one-hour class with handouts. Register early as space is limited, email enchantedherbpantry@yahoo.com or call (575) 745-1673.
