HOT TEMPER? EASILY IRRITATED?

Discover the Secrets to Holistic Anger Management

We all get angry from time to time, but sometimes people have serious issues with anger. They “blow up,” “lose their cool” and vent their anger in ways that are destructive to themselves and those around them. Being constantly angry can damage your heart and increase your risk of heart disease. It can raise blood pressure and increase your stress level. Anger has been traditionally linked with liver, gallbladder and urinary problems. Excessive anger also damages our relationships with others.

Fortunately, there are strategies that can help us keep our cool. Supporting the liver and detoxifying our body, balancing our blood sugar and reducing our output of stress hormones can all help reduce irritability and frustration in our lives. Learning how to set appropriate boundaries in our lives can also reduce anger and tension and go a long way towards improving our relationships with loved ones, co-workers and more.

Don't lose your cool, learn constructive ways to reduce your anger and irritability at this month's Healthy Habits class on **Saturday, June 6th at 9:00 a.m.** **This class will be at the Carlsbad Beach area during the Chili Cook-Off.** Cost: \$15/person. Bring a friend and save \$10 (\$10/ea). Class includes: one-hour class with handouts. Register early as space is limited, email enchantedherbpantry@yahoo.com or call (575) 745-1673.

Detox/Energy Foot Spa Sessions – Tired of Feeling T-I-R-E-D (or angry)??

The human body is approximately 80% water. Water is an excellent conductor of electricity. The human body functions off of electromagnetic signals. Similar to a car battery that charges a car, the human body greatly benefits from being recharged. The Detox/Energy Foot Spa charges the water and the water (in which your feet soak) charges your entire body.

Coming Next Month

In next month's Healthy Habits Class, we'll tell you the whole story about vaccines, including their potential problems and side effects. We'll also discuss how to help the real hero of immunity, our own immune system, with herbs and nutrition. If you have had vaccines, we'll tell you how to detoxify from them. If you're going to vaccinate yourself or your children, we'll tell you how to minimize side effects and if you want to avoid them, we'll provide you with information on how to legally do so. Join us and learn why vaccines aren't always a "hot shot." Also discover alternatives that can help you avoid being on the "wrong end" of the vaccine issue. This is important information that everyone needs to hear, so bring your family and friends.
